FORD TRANSIT CONNECT CARGO (XL & XLT)

TECHNICAL SPECIFICATIONS

At Wilderness Vans, we build your dream camper from start to finish, and this process begins with vehicle selection and sourcing. As one of our specialties is Ford Transits, we are very excited to offer the latest upgrade to our West Coast Mini line up.

When Ford reinvented the Transit and created the Transit Connect, they created a hit. Until then, the camper industry had not paid much attention to the micro camper, but the Connect changed this. The Ford Transit Connect is a versatile front-wheel drive van that can easily be retrofitted to meet a variety of requirements, and depending on the model and year purchased, has a multitude of high-tech add-ons to choose from.

Some newer options, such as blind-spot monitoring, front and rear parking sensors, lane-keeping assist, adaptive cruise control, and passive entry make for a van that is not only great for highway driving, but is also a fantastic vehicle for the constraints of urban living, from heavy traffic to tight parking spaces.

KEY FEATURES - 2014 TO CURRENT

- Long wheel base
- Avg. Cargo: 3625L/128 cu ft
- 2.0L GDI I-4 engine
- Est. L/100km² - 9.8 city, 8.8 hwy

COMPARISON TO THE NISSAN NV200

- Avg. Cargo: 3454L/122 cu ft
- 2.0-L DOHC 4-cylinder engine
- Est. L/100² - 9.9 city, 9.1 hwy
- Available in 2 Floor Plans:
 - West Coast Mini
 - Ledge

OPTIONAL POP-TOP INFORMATION

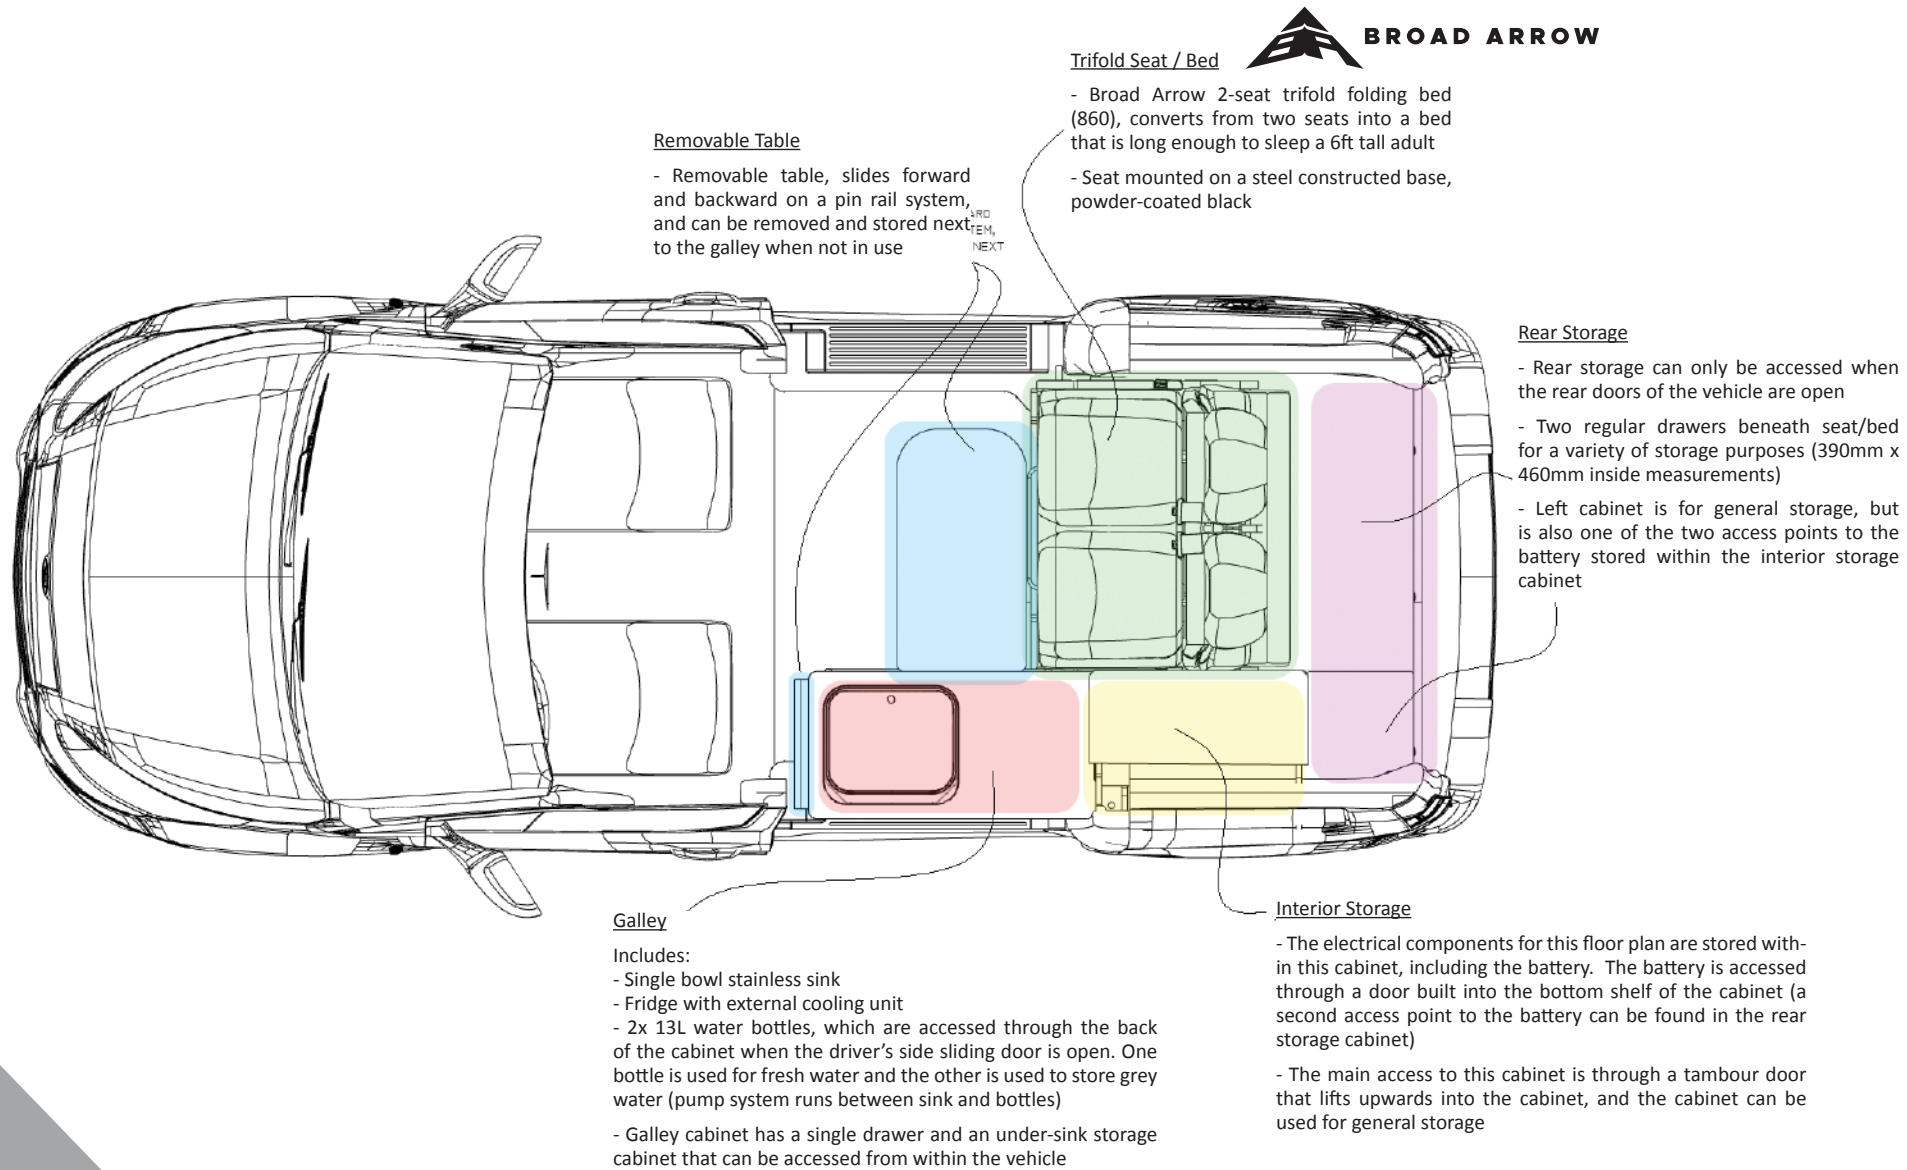

Our newest build design, created specifically for the Ford Transit Connect, is an upgrade to our standard West Coast Mini floor plan. With the addition of a sleek integrated pop-top roof, this floor plan can now seat and sleep a small family of four, and the galley and dining space now have additional head clearance when set up in Day Mode.

Our European built pop-top tents are designed to fit seamlessly on the roofs of newer Ford Transit Connects (from 2014 to current models) and are painted to match the finish of your chosen van.

POP-TOP SPECIFICATIONS

- Slimline profile, keeping with the design of the vehicle
- Fixed front spoiler. Where most pop-tops are full length and have a flimsy rubber strip across the front, the fixed spoiler helps reduce wind noise
- 2 LED lights flush mounted into the roof
- Stainless steel scissor anti-corrosion hinges
- Single piece box frame, strongly reinforced and firmly affixed to the vehicle at multiple points for security

WEST COAST MINI - OVERVIEW

WEST COAST MINI - DETAILS

FRONT VIEW

WEST COAST MINI FOR FORD TRANSIT CONNECT

WEST COAST MINI - MODES

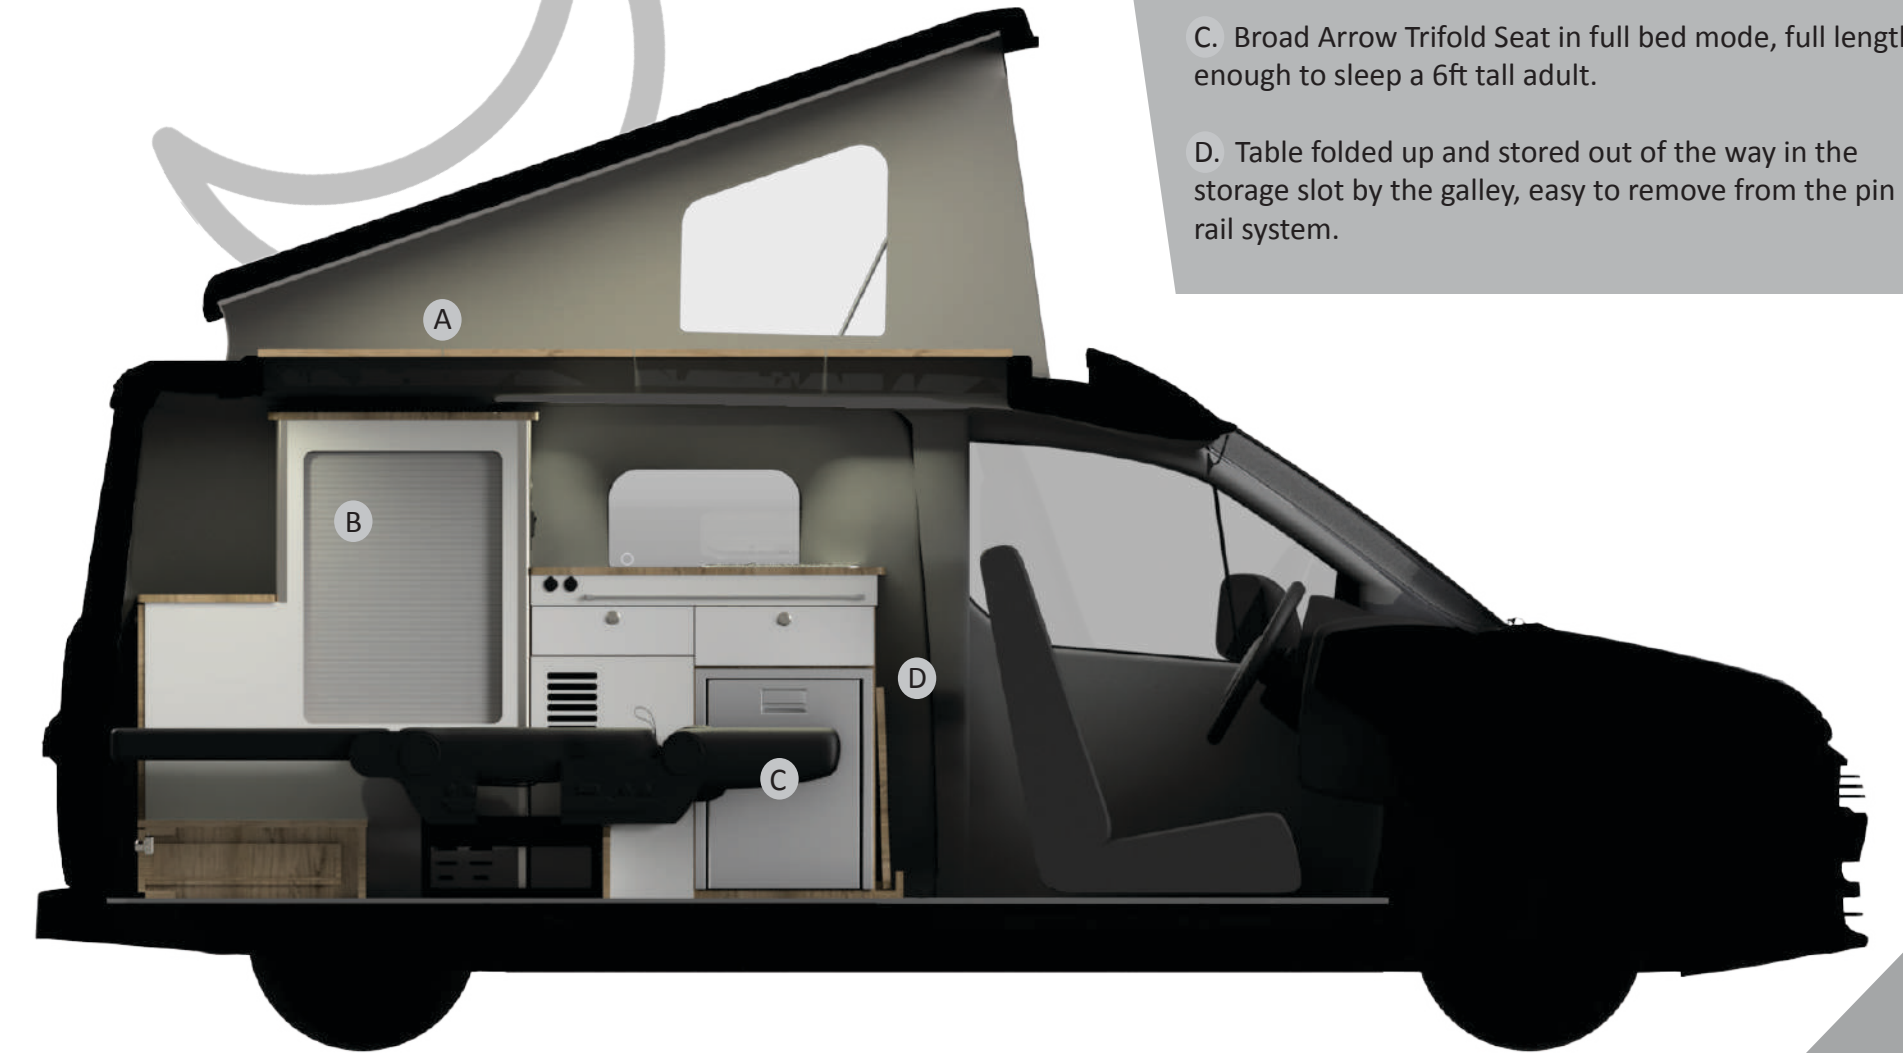

DAY MODE

- A. In day mode, the pop-top sleeping surface folds up and out of the way, giving more head space for the seating, dining, and galley space, making the space more open and comfortable.
- B. Broad Arrow seat can be moved into a variety of positions for comfort during the day, from upright seating for traveling and dining to lounging.
- C. Removable table slides on a pin rail system to allow flexibility of the galley and dining spaces, or can be removed altogether when not in use.
- D. Access to fridge is only available when the seat in is the sitting position.

WEST COAST MINI - MODES (CONT'D)

NIGHT MODE

- A. Pop-top sleeping surface folds and unfolds to allow access to the space, sleeps two.
- B. Interior storage fully accessible.
- C. Broad Arrow Trifold Seat in full bed mode, full length enough to sleep a 6ft tall adult.
- D. Table folded up and stored out of the way in the storage slot by the galley, easy to remove from the pin rail system.

WEST COAST MINI - INDIVIDUAL COMPONENTS

Galley

This tiny-but-mighty galley is perfect for any small van build, like the Transit Connect. It has storage, a refrigerator, a sink, and ample counter space. And, with the addition of the pop-top to the van roof, there is ample space for both dining and meal prep.

This cabinet design also boasts conveniently placed USB charging ports and a removable table with a folding leg, which can be easily stored to the right of the galley.

< **Table storage in action:** Keeps table stored and out of the way when not in use

REAR VIEW

- Two 13L water jugs, accessible from the driver's side sliding door. One is meant for fresh water, the other is for grey water.
- 12V submersible water pump, on demand

FRONT VIEW

- Stainless steel sink includes integrated fold-down faucet, chrome finish
- Stainless steel finish fridge
- Table on sliding pin-rail system w/ fold out leg

WEST COAST MINI - INDIVIDUAL COMPONENTS (CONT'D)

Interior Storage Unit

Storage optimization is important, especially in a small space. When we build vans, there are a couple of things that need to be incorporated in order to make your camping experience more comfortable (such as batteries, water jugs, etc.), but many times this can take a lot away from storage space.

This large cabinet has been designed to create a balance between those necessities and enough storage space to fit everything you need to make your adventures into the wilderness more memorable.

Seat Assembly

Our patented Broad Arrow folding seat/beds, just like the rest of the components in our builds, are designed to make your van interior as functional as possible.

Despite the small size of the Transit Connect, there is enough vertical space to incorporate additional storage behind the seat. Also, when the seat is in the seated position, there is temporary storage space above the drawers for coolers, hiking boots, tackle boxes, or any other supplies you might need.

SEAT/BED SPECIFICATIONS

- Width 860mm
- Length (Bed Mode): 1860mm
- 2x ISOFIX compatible child seat anchors
- Comes in a three colours: Black, Brown, and Dark Grey

FOLDING SEAT BEDS

The Trifold Double Seat 860 seat/folding bed is available in three colours, black, dark grey and brown.

LEDGE - FLOOR PLAN W/EXPANDING BED OPTION

The West Coast Mini is a tried and true build for smaller vans, but if we have learned anything through our years of experience, it's that there is no one-size-fits-all design for any type of van. With that in mind, we present an alternative floor plan for the Transit Connect that offers a slightly different experience in comparison to the West Coast Mini.

The Ledge floor plan option features a bed that expands to the full width of the van, a pull-out kitchenette that extends through the rear doors of the vehicle, and ample storage space.

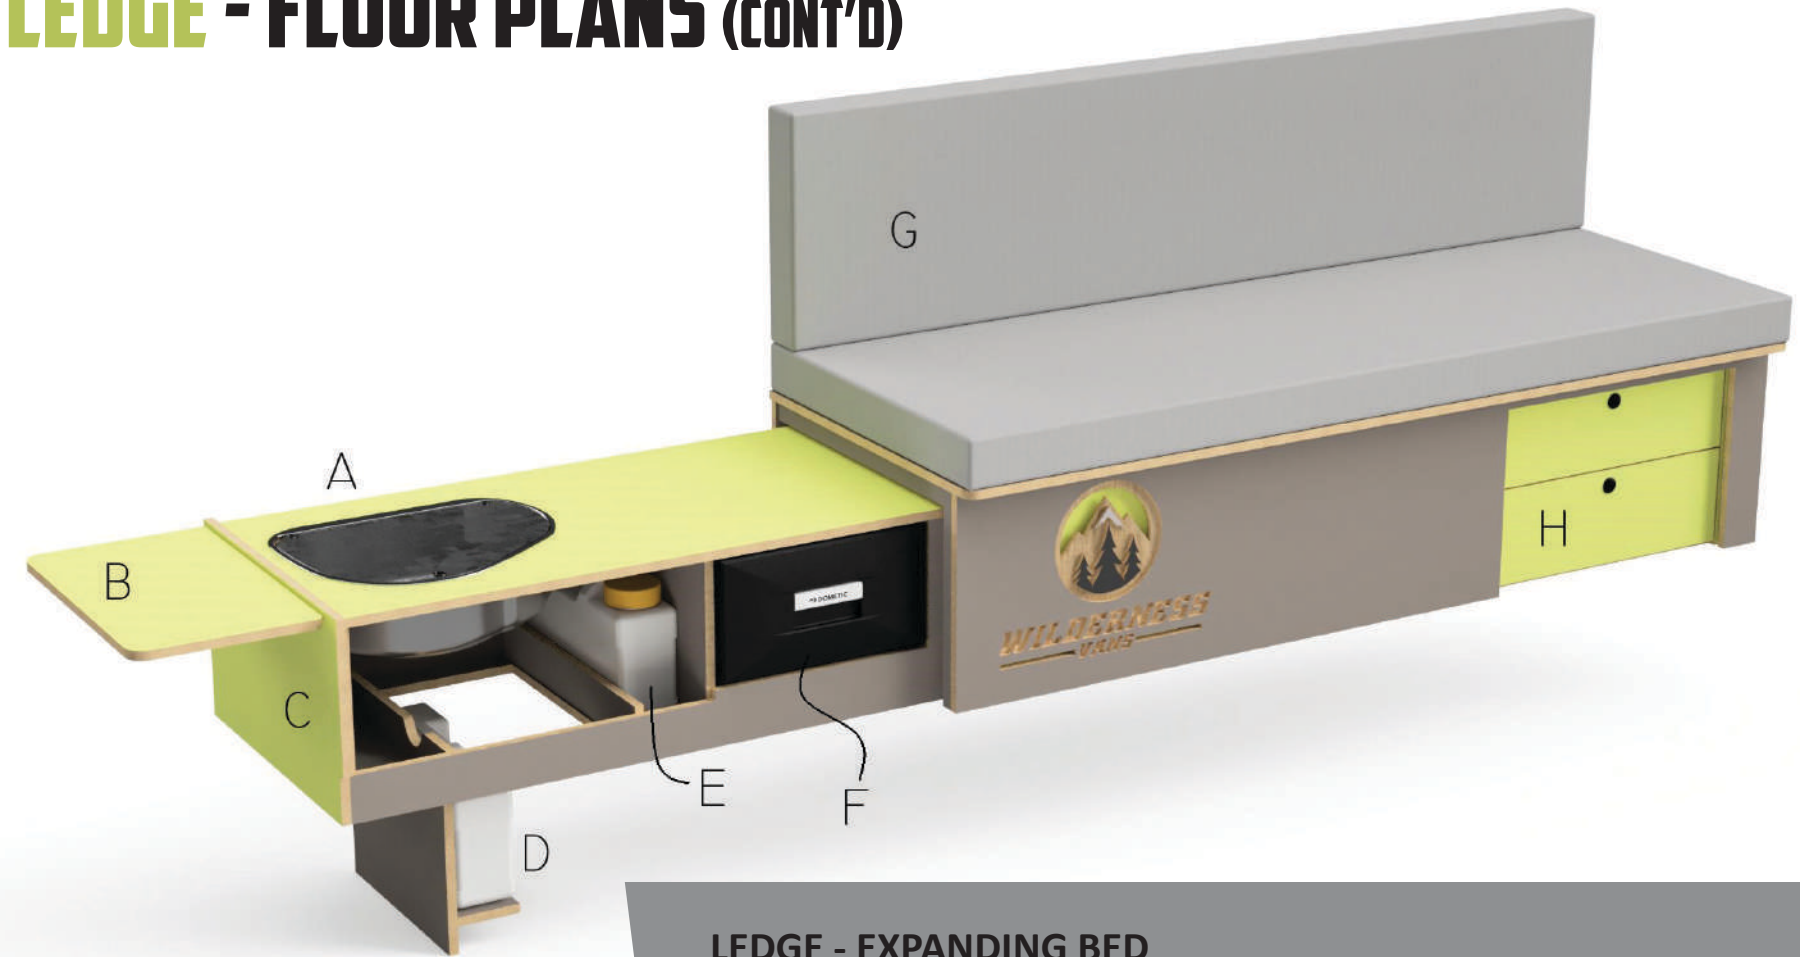

Expanding Bed: Using the handles provided, the expanding bed smoothly transitions from a bench, into a bed

< Front View:
Bench mode, with access to front drawers

Rear View: >
Additional cabinet that can be accessed through driver's side sliding door

LEDGE - FLOOR PLANS (CONT'D)

LEDGE - EXPANDING BED FOR FORD TRANSIT CONNECT

- | | |
|---|---|
| A. 1-Burner cooktop and sink w/ heat resistant safety glass cover | F. Drawer refrigerator |
| B. Flip-up table for extra counter space | G. Cushioned bench, which expands into van-width bed. (Cushions are re-configured into bed's mattress) |
| C. Propane bottle storage, plus additional storage | H. Storage drawers, accessible when the bed is in sleeping mode. (Additional storage compartment on rear side of bench, accessible from driver's side sliding door) |
| D. 12L grey water jug on flip-down shelf, for easy removal and disposal | |
| E. 12L fresh water jug storage | |

NISSAN NV200

The West Coast Mini floor plan is also available for the Nissan NV200 and the Ram Promaster City.

Custom cabinetry made with 11-ply baltic birch with your choice of laminate

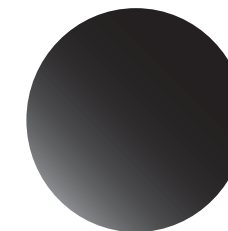

Rear View: >
Plenty of storage with cabinets featured in Blue Ridge laminate

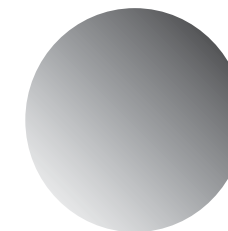

MATERIALS & FINISHES

Knobs & Extrusions

Push lock button knobs, for drawers and doors, as well as custom aluminum extrusions and nosings come in the following finishes: Black and silver.

BLACK

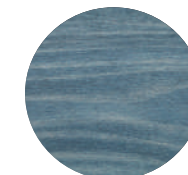

SILVER

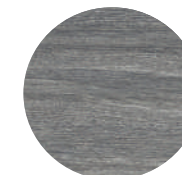

Laminate

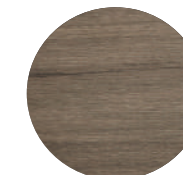

When selecting laminate finishes for your build, we generally suggest choosing a MAIN colour to begin, and then an ACCENT colour to make things pop.

BLUE RIDGE

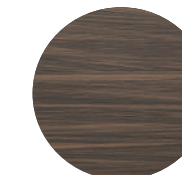

WEATHERED

TEAK

WALNUT

TREE LINE

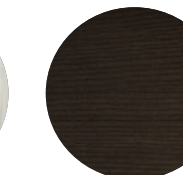

WOLF FUR

CONCRETE

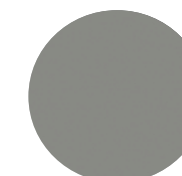

SNOWY OWL

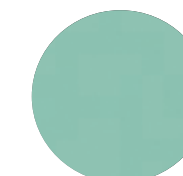

WOOD
BUFFALO

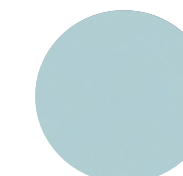

ARCTIC
WHITE

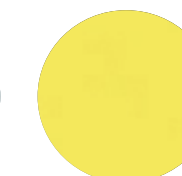

MOUNTAIN
GREY

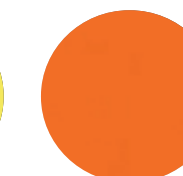

HAWAII
BLUE

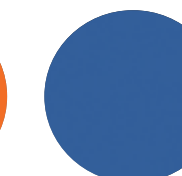

EGG BLUE

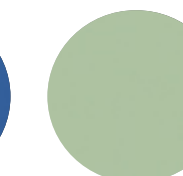

LEMON
LIME

EMBER
ORANGE

DEEP SEA
BLUE

FERN GREEN

BLACK

- All cabinets are constructed with 11 ply baltic birch
- Accent colours can be put on counter tops, tables, drawer/ cabinet faces (inside or outside), etc.
- Drawer construction is raw 11 ply baltic birch, un-laminated
