

WILDERNESS
VANS

We are van and vehicle obsessed, but we also love getting out in nature and exploring this amazing world. For us, it's about more than just arriving at the destination. It is the journey and experiences along the way that create lasting memories that can change our lives. What gets you there is half the fun! Wilderness Vans specializes in complete camper conversions. We can build your camper from start to finish and help make your dream a reality.

Wilderness Vans was started in October 2017, and is a division of Truck Hardware Ltd., a family owned and operated business. We are based out of Lethbridge, Alberta, Canada. Situated only one hour from the USA border, it makes it easy for us to serve both Canada and United States customers.

Our team of specialists are here to work with you every step of the way. Our team includes experienced journeymen carpenters, builders, drafters, journeymen mechanics and designers.

At Wilderness Vans, we take great care to ensure the quality is top-of-the-line. Everything is done in-house and we have sourced numerous products from the world to ensure you have what you need.
